Mike Hatch

Web Developer

A self taught web developer who has learned the fundamentals of front-end web development and explored areas of the backend. Lately I find my focus shifting over to WordPress Development.

See my profile on [LinkedIn](#).

Side Projects

Contact Form
RESPONSIVE / MOBILE FIRST
2018
Created a contact form with a responsive mobile-first design. Applied my knowledge of CSS to create an animated hamburger bun and text. For the form to send properly, I used JavaScript and the DOM and created a database with Google Firebase.

Key Project Skills:

- CSS Animations
- JavaScript & The DOM
- Google Firebase

Resume In Technicolor
CSS / HTML 5
2019
Sprung up a resume in HTML/CSS for both professional and portfolio use. Instilled matching typography fonts that go together well but also contrast. Used media queries to fit on both desktop and smaller devices. It's beautiful, man!

Key Project Skills:

- CSS & Typography
- HTML 5 Structure
- Media Queries
